

Autism Research Bibliography

December 2003 – By Bryan Jepson MD

I. GENERAL / AUTISM

Berney TP Autism: an evolving concept. *Br J Psychiatry* 2000;176:20-25

Juni-Dam N et al. Prenatal, perinatal, and neonatal factors in autism, pervasive developmental disorder not otherwise specified and the general population. *Pediatrics* 2001;www.pediatrics.org/cgi/content/full/107/4/e63.

Pangborn JB, Baker SM. Biomedical Assessment options for children with autism and related problems, a consensus report of the Defeat Autism Now!, *ARI* Sept 2001.

Rimland B. Is there an autism epidemic? *ARRI* 9:3, 1995.

Rimland B. Parent ratings of behavioral effects of drugs, nutrients and diets. *ARI Publ.* 34/Sept 00.

Rimland B, Our children: victims of both autism and dogma, letter. *ARRI* 11(3), 1997.

Rimland B, "Garbage science," brick walls, crossword puzzles, and mercury, letter *ARRI* 14(4) 2000.

Spiker D et al. Genetics of autism: characteristics of affected and unaffected children from 37 multiplex families. *Am J Med Genet* 1994;54:27-35.

Trottier G et al. Etiology of infantile autism: a review of recent advances in genetic and neurobiological research. *J Psychiatry Neurosci* 1999; Mar 24 (2): 103-15.

II. DIET

Knivsberg A et al. Dietary intervention in autistic syndromes. *Brain Dysfunction*, 1990;3:215-327.

Knivsberg A et al. Autistic syndromes and diet: a follow-up study. *Scand J Educational Res* 1996;40:24-31.

Lucarelli S, et al. Food allergy and infantile autism. *Panminerva Medica* 1995;37(3):137-141.

Rapp D. Does diet affect hyperactivity? *J Learning Disabilities* 1978;11:56-62.

Rowe KS et al. Synthetic food coloring and behavior: a dose response effect in a double-blind, placebo-controlled, repeated-measures study. *J Pediatrics* 1994;12:691-98.

III. AMYGDALA

Baron-Cohen S et al. The amygdala theory of autism. *Neurosci Biobehav Rev* 2000;24:355-364

IV. DIAGNOSIS

Baron-Cohen S et al. Early identification of autism by the Checklist for Autism in Toddlers (CHAT). *J R Social Med.* 2000 Oct;93(10):521-5.

V. MERCURY / HEAVY METALS / CHELATION

Adams JB, Holloway CE, Margolis M, George F, Exposure to Heavy Metals, Physical Symptoms, and Developmental Milestones in Children with Autism, in submission
